

PRAIRIE STONE ROCKS

Volume 1 Issue 1 March 2010

A newsletter for the 55+ Prairie Stone Condo Development

Welcome to the first edition of what we are calling "Prairie Stone Rock". We could have called it nuggets or pebbles but like the double meaning of "Rocks". In this piece, there will be little stones, rocks or nuggets of information and certainly this community of people ROCKS! We hope you find "PSR" helpful and fun.

New residents have just moved into 5725 Prairie Stone Drive after completing their purchase on November 6th. Please welcome them into the community.

The Gannon Company is now finishing the units at 5953-61 Granite Way. These are Plan #1 condos. The right hand side main level is fully finished with a lower level bath roughed in. At this time, the left hand side (5961) is just at the drywall finished stage, ready for countertop, flooring and color choices.

So, you like your Prairie Stone Condo? Then won't you help us get some friends and acquaintances into one as well? Just refer them to Tom or Paul of the Gannon Company at 838-4101. Email's great too. Tom's is: gannonco@hotmail.com and Paul's is: pspell36@gmail.com.

Anybody need a custom-made, hand-crafted ballpoint pen? We know who you can talk to!!

We will be rolling out our new web site soon. Same address: www.gannonrealtor.com just overhauled. Let us know what you think. Just email Paul or Tom.

We hope to update Prairie Stone Rocks on a quarterly basis. If you have any suggestions or any news items, let us know.

If you prefer to receive by email, just reply to one of our email addresses.
